A unit suffix should be used to search a period with expert query (e.g. contract-duration-period-val-lot=5d). "d", "m" and "y" units are allowed.

The value is internally indexed in days.

Here is the conversion table used for search:

- 1w=1d
- 1m=30.5d
- 12m=365d
- 1y=365d

The resulting number of days will be always floored (i.e. a duration of 1 month is converted into 30.5 days, that is floored to 30 days)

-

-

A unit suffix should be used to search a period with expert query (e.g. contract-duration-period-val-lot=5d). "d", "m" and "y" units are allowed.

This image shows a blank sheet of white paper with horizontal grey ruling lines. At the bottom of the page, there is a solid light blue band that serves as a margin. The paper is otherwise empty of any text or markings.

Only the first value available in the list of the column "Reference in the eForms SDK" will be searchable. For example, if the notice has BT-161-NoticeResult and BT-118-NoticeResult, only BT-161-NoticeResult will be searchable.
